DAILY NEVADA STATE JOURNAL

O. POWNING EDITOR AND PROPRIETOR.

FRIDAY MARCH 15th

THE DAILY JOURNAL

Is the best advertising medium in the Central Portion of Nevada and having a larger circulation in the State than any daily paper published in Washoe County it is the best advertising medium

THE DAILY AND WEEKLY JOURNAL

Have a circulation in every town and village in Nevada and in all portions of the Comstock

NEWS OF THE MORNING

The war on Strobridge Bones continues

A papal envoy will shortly visit San Francisco

The Belcher mine in Colorado was sold yesterday for $2

Female suffrage was defeated in the Massachusetts House by 127 to 55

Secretary Sherman thinks the Resumption Act ought not to be repealed

Several Rhode Island gentlemen have instituted a suit for $200,000 against the Credit Mobilier

Another Indian scare This time 700 lodges of Sioux, Brules and other tribes report about to be hostile

John Hayes is arrested for throwing Kearney off the stand at the Citizens Meeting in San Francisco last Saturday

A servant tried to poison Judge Campbell's family in West Virginia, but put in too much arsenic Vomiting saved them

In Mississippi a patent has been obtained for a method of collecting taxes upon drinks which is far better than the Monet or Clarke register Books of coupons are sold by the State Auditor to all liquor dealers When a drink is sold the consumer receives a coupon which entitles him to receive from the State, in payment of his taxes, one cent If two drinks are to be paid for he receives an orange colored coupon good for two cents If five drinks, a blue paper good for five cents Not only does the State enjoy an income from the tax on drinks but the consumer has a reasonable chance of paying off his taxes with the orange and blue coupons The saloons are crowded at all times with men making out their taxes

Meetings are being held in New York City to raise means for the relief of Jews in the East who have suffered greatly by the invasion of Turkey and many of whom are homeless and starving Circulars are being distributed setting forth the terrible distress and sufferings of the Jews in Turkey and appealing to their brethren in America to respond liberally and alleviate the starvation and distress now existing among them on account of the Russian invasion It states that many wealthy families have been made homeless and poor

The Murphy movement has gathered in Joseph Fritz Kaiser Emmet At a meeting at Bridgeport, Connecticut, last week the genial Dutch comedian and his wife both signed the temperance pledge and were decorated with the Order of the Blue Ribbon An exchange, in recording the fact apologetically explains that some two years since Mr Emmet was unable to fill an engagement on account of indisposition

THE PRESIDENT'S CHINESE ATTITUDE —The Washington *Star* says

The President has it is understood, given up his idea of sending a special message to Congress on the Chinese question He is in favor however of limiting Chinese immigration and of some such action by Congress as that proposed by the House Committee on Education and Labor directing the Secretary of State to enter into negotiations with a view to some change in existing treaties with that country by which the immigration of her subjects to the United States can be limited

Fees sell in Maine for a dollar and a half a dozen In order to give them this value the shells are first perforated with two holes the original contents blown out and the vacant space filled with whisky All on account of the Maine liquor law Another dodge is the patent faucet which, turned one way yields vinegar and the other wayale

The chairman of the National Democratic Committee in 1876 declared recently that Mr Hayes held his office by an irrefragable and sacred title

CORRESPONDENCE.

RENO, Nev March 12, 1878

Hon W W Hobart State Controller,—Sir Receipt is acknowledged of a printed copy of your annual report for 1877 I notice that the collection of poll taxes in the other counties compared with the registered voters falls far short of Washoe Is there no relief from a portion of the State tax for 1878? It seems to me that 50 cents will be amply sufficient for State purposes this year and perhaps 40 cents will be ample Under your discretionary powers could you not issue a circular to each of the auditors to the effect that at the December settlement the treasurers of the several counties will only be required to account for 40 cents of the 90 cents 50 cents of the 90 cents which has to be collected and that the balance will be received by you in the form of a certificate of indebtedness to be taken up at the December 1878 settlement I think in the legislature of 1879 could make provision for 1878 only the payment of his certificates of indebtedness in 1879 furnishing ample money for that year The difference between the 90 cents less the amount you will require at the December 1878 settlement could be used by the counties, and the levy for county purposes would be proportionately less In Washoe county we could keep the rate the same —40 cents for State and 50 cents for county and if we know that our Treasurer would only be required this year to account to you for 40 cents the other 10 cents added to the 90 cents for county purposes would give us the use of $150 just sufficient and the same rate of taxation for 1879 will enable us to take up our certificates of 45 cents and leave us $150 for county The relief thus afforded would be very sensibly felt by our people at least Very truly yours,

JNO B WILLIAMS
County Auditor

CARSON, March 10 1878

Jno B Williams Esq, Auditor Washoe County,—Sir In response to your favor of the 12th instant asking of it is within my discretionary power (as State Controller) to issue a circular to each of the auditors to the effect that at the December settlement the treasurers of the several counties will only be required to account for 40 cents of the 90 cents State tax which has to be levied and collected for 1878 in order that the counties may have the use of the remaining State revenue for their own purpose, I have only to say that I have no such power discretionary or otherwise My powers are circumscribed confined and confined to the strict enforcement of the revenue laws as I find them on the statute books I call your attention to Sect 3 198 page 209 2d volume compiled laws and especially to this clause, The County Treasurer shall on the second Mondays of June and December in each year settle in full with the Controller of State and send in such manner as he shall designate to the Treasurer of State *all* funds which shall have come into their hands as County Treasurers for the use and benefit of the State etc Even if any portion of the State revenue could be legally left in the County Treasuries it would not insure to the benefit of the counties for if the County Treasurer paid it out for county purposes he would be liable to be sent to State Prison See section 3 201, page 210 same volume I enclose you herewith the opinion of the Attorney General as to my 'discretionary powers in this regard The fact is that the only power to grant 'relief from a portion of the State tax of 1878 if relief is really needed which I am disposed to doubt from the comments from a large portion of the State press lately is lodged in the legislature which body can only be convened by the Governor. If the relief mentioned is really desirable all such applications should be sent to him Very respectfully

W W HOBART
State Controller

OFFICE OF ATTORNEY GENERAL
CARSON March 10 1878

SIR In response to your favor of the 11th instant, asking "if it is within your discretionary power as State Controller to authorize or allow the retention by the several County Treasurers of any portion of any portion of any revenue due or coming to the State as shown by the semi annual reports of the County Auditors to the Controller" I give it as my official opinion, after a careful examination of the statutes that you are clothed with no such authority

By referring to section 3 192 21 volume C L you will perceive that it is made the duty of County Treasurers on the second Mondays of June and December of each year to *settle in full* with the Controller of State and send * * * * to the Treasurer of State *all funds* which shall have come into their hands as County Treasurers for the use and benefit of the State On this construction of said section I ground the opinion which I here render Very respectfully your obedient servant

JOHN R KITTRELL,
Attorney General

HON W W HOBART,
State Controller

NOTES ON EDUCATION

Nashville has not enough schools for colored pupils 200 have applied in vain for admission to the schools

The average attendance of colored children in the Richmond schools during the past few weeks has been 1976

There are twenty three female students in the Woman's Laboratory of the Massachusetts Institute of Technology

All but four of the juniors who tried the anti-prandial examination in logic at Harvard passed Ten passed in metaphysics

In Michigan the public schools have an attendance of 356 264 Male teachers receive average salaries of $34 per month

St Louis does not feel rich enough to give text books gratuitously to the pupils of her schools but she proposes to furnish them at cost price

At the June commencement of the Boston University Miss Mowatt Mason will be one of the representatives of the Medical Department

The American Institute of instruction will hold its forty ninth annual meeting among the White Mountains in the second week in July

The new school bill proposed for Maryland provides that the existing high schools in the counties shall be continued but half of the expense must be paid by the patrons

With the present provision for the public schools in North Carolina they can have yearly terms of but two months in length First Grade teachers receive salaries which by law are limited to $45

Wisconsin's four Normal Schools cost last year a total sum of $70 050 00 The State supports 100 graded schools The average monthly wages of male teachers have decreased $2 47 the past year and those of female teachers 81 cents

The Cleveland Board of Education has good sense It has resolved to nominate six ladies and six gentlemen who shall be invited to visit the schools and examine the same, and report their condition and visits not to be connected in any way with the schools

The German universities cost the State just $2 500 000 a year This is the exact amount charged for them in the budget of the Empire, and the money thus spent is divided amongst 1 300 professors The students for whom their services are thus retained number 21,220 of whom 4 087 belong to the University of Berlin which is by far the largest, while Rostock which is the smallest contains only 144

Concentration of our scattered educational forces newer and better schools are wanted by *Barnes Educational Monthly* It is a great injury it says to the cause of education that every corporation and every church can found as many colleges as they please, receive donations call professors, elect a president, graduate students, confer all literary and theological degrees and cite all, have only a name and almost nothing more It can only be by the concentration of money, men books and museums that truly great and useful schools can be established There is great value in great inspiration in a truly great university

LIGHTING A ROOM BY ITS WALL PAPER —Referring to the suggestion made in Germany that wall paper could be coated with oxalate of copper, which appears lighter as the room grows darker and *Iron and The Manufacturer and Builder* advances the idea that a room might be made temporarily self luminous by similar means there are several salts which absorb light if exposed to it and give it out afterwards Among these are sulphides of barium and certain coal tar extracts of the anthracene series The best way to produce the effect would be to employ a powerful electric light in the room for a short time until the wall paper had acquired its phosphorescent power, and then cut off the electricity and admit visitors to the room Anything more would then such an apartment is scarcely conceivable till the experiment would not be exceedingly costly It might be employed with surprising effect in the imitation performances of a secret society

NEVADA RAILWAY — Messrs Spaulding & Bridges left on horseback for Battle Mountain this morning to file over the line of survey of the Nevada Railway They will be joined at Battle Mountain Saturday next, by parties from Austin and Chicago and will proceed to organize the Company and incorporate it under the laws of the State of Nevada Personally we consider that the building of the railroad has fallen into good hands and that these parties (some of whom are well known here) taking hold of the enterprise will insure the speedy completion of the road —*Reveille, 19th*

THE Virginia *Chronicle* of Wednesday evening has this

Mr J C Hagerman one of the leading merchants of Reno and a prominent Democratic candidate for Governor of Nevada is in town to day He possesses one attribute no often found among politicians—candor He says plainly that he is a candidate and furthermore that he feels tolerably certain of receiving the nomination and, in that event, 'dead sure' of election

FASHION NOTES.

Gentlemen's neckties are wider than heretofore

Basket woven straw bonnets are the latest novelty

Pretty new fans are of rustic bamboo, and painted

Jet will be the favorite bead trimming this summer

Mourning stockings are embroidered with jet beads

'Czarowitch' is one of the new indescribable shades

The oak leaf design in pearl cemetery is very attractive

Crape lisse ruchings are pleated much narrower than heretofore

Clair de lune has had its day, although it will still be worn a little

Quelque Nuppe is the name of a new French material for Spring

Bunches of ostrich tips will be used for garnishing hats and bonnets

All lace embroidery is something entirely new and very handsome

Princesse dresses are made with plain round or square trains, but profusely trimmed up the front

The 'multiform' is a new style of dressing the hair This is very definite description, but thus saith the oracle

Gold and silver balls will be much used for buttons and for trimming this season they are carved in a beautiful manner

Exquisite coral sets are in the shape of small half blown roses a dewdrop in the centre is represented by a tiny diamond

One of the prettiest designs for a lace pin is a spray of lilies of the valley each lily represented by a diamond or pearl

A new design in mitts for Summer wear is insertion for the hand with lace work beginning at the wrist and extending to the elbow

Pottery dealers and silversmiths are making table furniture so that no two pieces are alike and each member of a family can have his own cup, plate spoon or fork

A NEW CEREAL DISCOVERED

We have been shown a new grain discovered about four years ago by a farmer in Surprise Valley, in the northern part of this State, taken from the crop of a wild goose, which had been shot by the farmer He sowed the seed immediately after it was taken from the gamer of the bird's crop and it produced more than an hundred fold Mr Merithew a farmer of Butte county being on a visit to Surprise Valley, obtained some few seeds of the new grain and succeeded in propagating it with wonderful success on his farm in Butte county The straw and beardless head resemble wheat, the grain looks a little like rye but is twice as large as rye When cut as it is passing into the milk it makes a hay even superior to wheat hay Mr. Merithew has on hand several tons of hay from this new variety of grain and perhaps five bushels of its seed He gave about two quarts of the seed to one of our citizens lately visiting Butte county who was struck with the wonderful beauty of this new cereal and brought it to Southern California for propagation Thomas R Bard has taken the seed and proposes to give it a thorough test upon the rich alluvial lands of the Colonica Rancho, near the sea shore It could not have fallen into the hands of a more intelligent and pains taking cultivator It appears to us every way superior to rye, and may prove to be of great utility as it is a fine grower and very productive We have some of the grain, as a specimen at our office, which is attracting great attention —*Ventura Free Press*

A PRESIDENTIAL TRIUMPH —The Utica *Herald* has the following

The Presidents nominations are now confirmed with a regularity which proves that the backbone of the Senatorial opposition is broken It can cause delay It can give annoyance It can create divisions The recent striking examples demonstrate that the time when it could on the grounds of personal ambition and factious rivalry, reject nominations has passed away The steady patience of Mr Hayes is bearing fruit The Senatorial combination has been broken down at several points and it can nowhere be stronger than its weakest link The Senatorial leaders have been unable to capture the Administration, and now find that they can not prevent the confirmation of its appointments They will have to determine for themselves how long they propose to keep up their unseemly fight for the spoils At their defiant demand for patronage the President has refused to stand and deliver They fail to extort the control of nominations

NOVEL HORSESHOE —In England they are adopting a horseshoe made of cowhide and known as the Yates shoe It is composed of three thicknesses of cowhide compressed into a steel mould and then subjected to a chemical preparation It is claimed for it that it lasts longer and weighs only about one fourth as much as the common iron shoe, that it will never cause the hoof to split, nor have the least injurious influence on the foot It requires no calks, even on asphalt the horse never slips The shoe is so elastic that the horse's tread is lighter and surer It adheres so closely to the foot that neither dust nor water can penetrate between the shoe and hoof

CHINESE IN CANADA —A telegram dated Ottawa, March 13th, says

In the House of Commons to day Burns moved that the Government insert a clause in all contracts for the construction of the Canada Pacific Railway that no man wearing his hair longer than five and a half inches shall be deemed eligible for employment in said work etc He went on to say that as the Chinese residents of British Columbia were Chinese subjects, this was the only shape in which he could bring up what was in reality a great national question He referred to the immigration of Chinese and contended that in many ways their presence in British Columbia tended to retard its settlement and progress The motion was intended to prevent their employment on the Canada Pacific Railway After some discussion the motion was voted down

SHIP CANAL —A ship canal across the Corinthian Isthmus is now under contemplation The work is to be performed by convicts, and will require about five years to complete it The estimated cost is $5,000,000 The canal will be 4 miles long, 72 feet wide at the bottom, and 26 feet deep The estimated cost per mile is $1,250,000 The canal will be 4 miles long, 72 feet wide at the bottom, and 26 feet deep The estimated cost per mile is $1,250,000

CAPTAIN COOK accepted a steel of mahogany of cut hunting knife It is exceedingly ornamental but excludes vermin and keeps out the uneven weather keeps out cold rain and the dampness which arises from cold is conducive to the healthfulness and warmth of a house and saving fuel It can be used year after year without any additional expense whatever The cost saved twice every season in wear of carpets Call and examine *

OSBURN & SHOLMARE wholesale and retail druggists Commercial Row Reno (removed to one door west of their old stand) now offer everything in their line at the lowest possible rates—including paints oils varnishes and glassware, patent medicines fancy and toilet articles bird cages lamps and lamp fixtures *

CHOICE SEED POTATOES — These will yield 20 tons to the acre in good ground They took the first premium at the last State Fair Price —25 cents per pound Raised by H Wright Sierra street Reno All orders left at John Sunderland's store will receive prompt attention

TREES AND PLANTS —Stephen Connor of the Reno Nurseries has 50 000 fruit, shade and ornamental trees and plants for sale, embracing every known variety, and warranted to be in first class condition for transplanting Will be sold at very low rates *

R E QUINN practical druggist and manufacturing chemist All medicinal and toilet preparations made in my laboratory will be of first quality and sold at reasonable prices Personal attention given to physicians prescriptions *

PRESCRIPTIONS carefully compounded by a graduate of a College of Pharmacy at all hours of the day and night at rates to suit the times at the drug store of

MISCELLANEOUS.

SWORN EVIDENCE.

The following Cure is probably the most remarkable ever effected by any medical preparation for the treatment of Catarrh:

Centerville —I have had Catarrh for about thirty years and have been at times entirely deaf for months together I spent nearly all of six years and hundreds of dollars seeking relief from physicians without success I also used Dr Sanford's Inhalator, which gave me only temporary relief I was induced by my physician to try Dr Sage's Catarrh Remedy, which I did, and after using two bottles was entirely cured of Catarrh and Deafness, and have had no return of the disease for two years I am satisfied that Dr Sage's Catarrh Remedy is the best and cheapest remedy for Catarrh ever offered to the public I have recommended it to many of my friends and acquaintances, and all who have used it speak in the highest terms of it I am satisfied that it is the only sure cure for Catarrh in the world

Yours truly,
LOSEE B TAYLOR

CROUP DISMOUNTED

Terror is usually seized the entire household when the child is attacked with croup, but all this needless alarm and suffering may be avoided by the timely use of Shiloh's Cure Sold by all druggists at 50 cents per bottle

THE *Enterprise* is no longer delivered around town in the forenoon, whereat there is much grumbling. The reason for this is the change of time on the morning freight train from Virginia.

THE *Pioche Record* has entered upon its sixteenth volume, and we are pleased to hear that its future looks brighter than at any period during the last three years.

DR. SIMMS will lecture on the "Nervous System and Mind," at the Academy of Music, to-night. Call to-day and have a delineation of character and chart.

THERE will not be as much work done up in the mountains this Summer as we had hoped for. Only about 25,000 cords of wood will be cut.

MRS. BOWERS is doing a rushing business in Truckee, and has appointments a week ahead.

THE stock markets showed a strengthening tendency yesterday, and maybe the worst is over.

MR. JAS. HOLBROOK came up from Woodworth yesterday. Reports his town about the same as usual.

THE annual meeting of the Con. Poe will be held to day. We hear of no contest for control.

Salisbury & Wetherill have dissolved partnership, Fred retiring.

HEAVY plain gold rings for $2 50, at Uncle Harris', San Francisco.

THE WORKINGMEN'S PARTY.

The Organization in Reno Last Night —A Very Successful Meeting—"The Chinese Must Go"—Etc.

McGinley's Opera House was crowded last night to hear Mr. Apponyi speak, and to further the interests of the Workingmen's Party. At half past seven Mr. Apponyi was escorted to the stage by L. P. Walker, Chas Queen and M Friedman, and his appearance called forth a burst of applause. Charlie Queen opened the meeting in a few appropriate remarks, and concluding by announcing that his virgin vote would be cast next Fall for the Workingmen and he was glad of it. After Mr. Queen had finished, Mr. Walker introduced Apponyi. He commenced with the Kearney war cry "The Chinese must go." The audience heartily applauded. He then recited the causes which had made it necessary that the people, irrespective of party, should organize, declaring that both the Republican and Democratic promises had amounted to nothing. He showed how Kearney had started the move in California, the opposition he had encountered, how he was made a martyr of, and the grand uprising of the populace in his favor, and the success achieved since, and the certain victory sure to follow in the future. Mr. Apponyi then showed that John was here and there and everywhere, and how necessary to perpetual free liberty it was that the Burlingame treaty should be abrogated. Next showed up Stanford, the C. P. R. R., Boss Carr, Haggin, Tevis and corporations and capitalists, and winding up by declaring that for every $3 they benefitted the people they got $6 back; how unjustly burdens of government were enforced, by oppressing the poor to assist the rich, etc. Spoke of Sacramento as a den of thieves, scored Sharon, and then returned to "The Chinese Must Go," which brought down the house; in fact he made many good points, which the audience noticed and applauded. We are sorry a lack of space prevents us from noticing the speech in detail, but it was well delivered, and struck a responsive chord.

His call for signers to the abrogating pledge caused a big rush to the front, and over 200 names were enrolled.

After this officers were elected, the following being chosen: L. P. Walker, President; S. F. Hoole, Vice President; Chas. Queen, Secretary; R. Leeper, Treasurer.

After all of this cheers were given for the Workingmen's party, Mr. Apponyi, officers of the club; groans for John Chinamen; when the audience being in such good humor calls were made for Hoole and others to speak, and they did.

New Patents.

Through Dewey & Co., Patent Agents, San Francisco, we receive the following list of U. S. patents granted to Pacific inventors: James G. Divoll, S. F., car truck; Robert W. Eaton, Watsonville, Cal., spoke tenoning machine; George K. Glenn and Henry Fern, Woodland, cornice mold and mitering device; Parker F. Morey, Oakland, purifying coal; Robert R. Spedden and Daniel F. Stafford, Astoria, Ogn., anchor; Henry Hartman, Camp Halleck, Nevada, apparatus for administering medicine to horses.

Business Changes.

E. Meyer, the cigar man, being compelled to give up his present location has rented the old vacant Chase store and will move in to-morrow. We learn that Simmons has been notified to give up his place, or pay more rent. Marshall has the sign "To Let" on one of his stores, which likely means that Dick Nash and Nick Hammersmith will have to hunt other quarters.

Fizzle.

The attempt to organize a Workingmen's movement in Gold Hill was a miserable failure; out of a crowd of two or three hundred who went to hear Mr. Apponyi speak, only three men went to the stand and signed the roll.

Affirmed.

Our Supreme Court has affirmed the judgment of the lower Court wherein a verdict of $15,000 was obtained against the V. & T. R. R., for running over a man in Virginia, whereby he lost a leg. The decision is by Hawley, Chief Justice.

Acquitted.

Pierce, who shot M. B. Hayes, at Tuscarora last September, has been acquitted by the Elko jury before whom he was tried.

That Murder Case.

We mentioned yesterday morning that some one had killed an Indian by beating him over the head with a coupling pin. We gave no particulars, simply because none could be given. The affair is wrapped in mystery. All that is known of it is this: As Mr. Tredway was going home from the oyster social Wednesday night, at about 10 o'clock, his attention was attracted by what in the moonlight he thought to be a red shawl lying on the ground. Going up to it he discovered that it was a large pool of blood, beside which lay a dead man, still warm and bleeding. The length of hair and general appearance told him it was an Indian. He returned to town—the body was lying just this side of the planing mill—and notified the officers, who hastened to the spot. Close to the body lay two pins, such as are used to couple railroad cars together, and upon one of which was blood. It would seem that two Indians had a fight, and in the melee the deceased got a fearful blow with the pin over the ear, which killed him. This theory gains strength from the fact that not an Indian could be seen anywhere around. Had a white man killed him every red-skin in this vicinity would have been clamoring for his apprehension. As it is all inquiry fails to elicit any particulars whatever, the tribe would not tell his name, age nor nativity. In fact it is like a Chinese "no sabee" case. Coroner Haslund took charge of the remains and had them removed to the dead house, around which early yesterday morning the Indians gathered in force and "cried," after their own fashion, for several hours. The coroner buried the body yesterday afternoon.

A Steam Wagon.

A steam wagon, we believe one of L. E. Doan's inventions, passed through town last evening, bound for Mill City, where an attempt is to be made to run it between that place and the sulphur mines, which are twenty miles distant. The country there is very sandy, and it is, therefore, very hard work for horseflesh to draw even small loads over it. The steam wagon is sent there to see if it can do good service. The wheels are three in number, one in front to do the guiding and two behind; they are nearly six feet in diameter; with tires a foot wide, upon which are ridges running diagonally, for the purpose of giving them a better foothold. The fire-box, smokestack, cab, etc., are similar to those of a locomotive, except that the smokestack is near the cab. It was a novelty, and attracted much attention. If it proves a success at Mill City, we look to see it generally introduced.

State Tax.

Elsewhere will be found the correspondence between County Auditor Williams and State Controller Hobart, with the opinion of Attorney General Kittrell, relating to the State tax.

THE Female Minstrels will be here April 1st.

L. T. Fox, of Storey county, is looming up as a Democratic candidate for the Governorship. Mr. Fox is a gentleman of excellent character, and if he should enter for the race he would develop great strength in this county. Outside of the Comstock region the indications point to J. C. Hagerman of Reno as the coming man.—*Va. Chronicle.*

PROF. GORINI, of the University of Padua, treated the body of Victor Emanuel with a preparation which made it as hard as marble.

MOVED! MOVED! MOVED!—The City Drug Store will now be found on Commercial Row, where we will be pleased to see all our old patrons and as many new ones as have any use for anything in our line. New drugs and medicines, and sold very cheap.

MATHESON & MCRAE.

HOME AND HOME SHUTTLE WING MACHINE.

JOHNSON, CLARK & COMPANY,

MANUFACTURERS

17 New Montgomery St, San Francisco, Cal.

The HOME and HOME SHUTTLE Sewing Machines were awarded the highest prizes and diplomas at the Centennial, 1876 and are the perfection of Mechanism Those unequalled machines use a straight needle make the Lock Stitch have a self adjusting tension and are adapted to every variety of Sewing for Family wear from the lightest muslins to the heaviest Cloths and will also sew leather They are especially adapted to the wants of

Tailors, Dressmakers, Seamstresses, Manufacturers of Clothing, Shirts, Skirts Corsets, Ladies' Boots, Umbrellas, Etc, Etc, Etc

THE HALL TREADLE

Is the greatest improvement ever invented in connection with the sewing machines and we being the sole agents for the Hall Treadle have concluded to apply it to every Home or Home Shuttle Sewing Machine sold hereafter on the Pacific Coast without extra charge (Take notice that every other Sewing Machine filled up with the Hall Treadle costs $12 extra)

The Home and Home Shuttle Sewing Machines with Hall Treadle attached, are the lightest running, and superior to any machines, and for all practical working purposes,

Simplicity, Strength and B

They are unapproached by any other Machine yet invented

The Hall Treadle will be attached to any other machine if desired. Mr. Jaquish invites all to visit his place and see how it operates.

J. N. JAQUISH,

Agent for Reno and Northern Country
